

## Golden Cuticle Oil

We all know parched cuticles cause irritating hangnails, dry, cracked skin, and quicker manicure lifts. Other cuticle oils take forever to absorb with their heavy oils and end up leaving you with a greasy mess.

Our dual-working cuticle oil immediately plumps your skin with hyaluronic acid and seals in the moisture with a lightweight blend of sweet almond and jojoba oil. You'll be reaching for this cuticle oil for its moisturizing properties *and* for our unique aromatherapy blend of eucalyptus and bergamot that will **radiate** your senses. You'll feel like you have a part of the spa with you anywhere you are.

Have soft, smooth cuticles and a longer-lasting manicure.
